

Week of Easter!

4.19.22 and 4.20.22

"Victimae paschali laudes" is a chant used in the Easter Liturgy handed down from medieval times. Below is a verse from it that sings of what happened in the work of redemption by Our Lord:

**“Death and life have contended
In that combat stupendous:
The Prince of Life, who died,
reigns immortal.”**

Death and life contended (or battled as other translations say) and the Prince of Life is victorious. We as Christians are so blessed and will it seems can only realize in eternity what has happened. This disease of the human race called death has been defeated. What joy and celebration this should cause!

That is our goal this week as the Northside leadership: joy. Both of our youth group nights will be filled with **joy and celebration** as we revel in what Jesus has accomplished through His life, death, and resurrection.

Now, we are invited to participate in the divine life because of what God has done. May your Easter season be filled with saying yes to the ways God is inviting you to encounter this amazing, incredible, good news!
